

SayNoToHunger

MVP Presentation

Bipin Kumar (200439429)

ENSE 885as Topics in CSCW

University of Regina

Index

- Likes/dislikes about the project
- Positives
- Hurdles faced
- Software design activities
- Future Projects

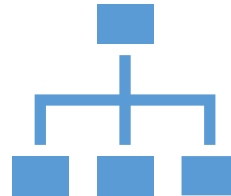

Likes/dislikes

- Software stack selected served perfectly
 - Adobe XD
 - Android Studio
 - Kotlin
 - Firebase database
- More easier to develop from a prototype
- Achieved desired result for MVP's
- Could have learnt more if it was not a compressed class

Positives

Software stack
selection was correct

Decent application (first
time)

Something for society

Hurdles

- Learning Kotlin
- Connection to database
- Unable to include images in the application

Design activities

Agile approach

Rhizomatic Learning

Digital habitat

Tech Steward (responsibility and practice)

Edwards Deming (Plan, Do, Study, Act)

Application followed Bazaar approach (Eric Raymond)

Future Projects

- Surely follow the Agile approach
- Build prototypes first
- Will ensure PDSA followed

Thank You!
